

**WISCONSIN CITIZEN LAKE MONITORING NETWORK  
VOLUNTEER ID, WATERBODY AND STORET NUMBERS**

Volunteer Name(s)	Volunteer ID number

Lake, County	Waterbody Number

Site Name	Storet Number

You need these numbers to enter your data into the CLMN Secchi line or the web site. These numbers identify who collected the lake data, on which lake, and at which site. All of the data that you collect should be tied back to your volunteer id number. The storet number identifies the “deep hole” or the site on the lake where you are collecting data.

If you have any questions, please contact:
